

Roland Sarlot and Susan Eyed's
"Dance of Illusion" Magical Illusion Shows
Technical Overview

For maximum audience impact, the following are basic technical requirements. Please note, we are flexible and will adapt, to the best of our capabilities, to fit your venue and requirements. Please call us to change any of these specifications.

Stage Show

Description: A captivating fast-paced illusion show that is powerful and theatrical. A colorful and visual illusion stage show driven by exciting costumes and world music. The show utilizes the advantages of the theater to deliver a gripping and edgy production transporting your guests on an international magical journey.

Length: 15-75 minutes

Tech requirements:

Staging: 24' wide by 12' deep stage with stairs in front off to side. However, the bigger the stage the bigger we'll make your show! Stage wings or 10' by 10' minimum costume changing area immediately next to stage (preferably on each side) with table and chair. Stage must be level and non-moveable for safety.

Sound system: High quality sound system capable of mixing dedicated 4 channels of voice and music. We provide music players, microphones and operate all sound cues. Can provide sound board, amp, speakers and soundman.

Lighting: A bright stage with a general wash and dimmable house lights is usually sufficient. If available, prepare a warm wash, cool wash, a down stage/center special, a follow spotlight with operator and a lighting technician.

Audience size: Theater style 1000+ and banquet style 500+, project screens are recommended.

No. of performers on stage: Two

Age appeal: All age appropriate, no "blue" material

Style/Application: The show can be customized to the specific needs of the clients, as the featured performers, illusions, or perform walk-around/up-close magic.

Cabaret Show

Description: A fun and charming cabaret show utilizing light-hearted humor and audience participation. This show has the performers not only closer to your audience but in the audience and your guests in the act! It uses the advantage of proximity to deliver a scripted yet freshly spontaneous and entertaining magical evening for your clients.

Length: 15-45 minutes

Tech requirements:

Staging: 12' wide by 9' deep and raised. However, the bigger the stage the bigger we'll make your show! Risers higher than 12" with stairs in front off to side.

Sound system: High quality sound system capable of mixing dedicated 4 channels of voice and music. We provide music players, microphones and operate all sound cues. Can provide sound board, amp and speakers.

Lighting: The existing room lighting is usually adequate.

Audience size: Up to 250 (in banquet setting). Larger groups should consider stage show.

No. of performers on stage: Two

Age appeal: All age appropriate, no "blue" material

Style/Application: The show can be customized to the specific needs of the clients, as the featured performers, illusions, or perform walk-around/up-close magic.
